100X300MM | **10.5MM** Thickness

Features & Advantages

Chemical Resistance	Heat & Fire Resistance	Abrasion Resistance	High Tensile Strength	Less Water Absorption	Environment Friendly

Subway tiles are a popular choice for kitchen backsplashes, bathroom walls, and shower surrounds.This larger size can create a different aesthetic compared to the standard subway tile. It might be used in spaces where you want a more modern or bold look, as the larger dimensions can make a space feel more expansive and contemporary. These larger subway tiles can also reduce the number of grout lines, which some people prefer for easier cleaning and a sleeker appearance.
