PU - STONE

Stone Character, **Reinvented.**

FLEXi PU Stone brings the raw beauty and depth of natural stone into modern interiors through a lightweight decorative surface solution. Its realistic texture, dimensional form and refined finish help create bold architectural walls without the heavy visual or structural feel of conventional stone.

Designed for contemporary homes, hospitality spaces, offices and retail environments, PU Stone gives designers greater freedom to create expressive surfaces with a distinctive natural character.

Inspired
by Stone.
Made for
Modern Spaces.

PU - STONE

Designed to
Fit Every Vision.

From compact feature areas to large statement walls, FLEXi PU Stone is available in multiple formats to suit different design requirements. Each panel is created to deliver strong visual depth while maintaining a balanced and seamless architectural appearance.

Whether used vertically, horizontally or across expansive wall surfaces, the collection allows greater flexibility for residential and commercial applications.

Beauty

That Performs.

FLEXi PU Stone is more than a decorative surface. It combines realistic stone aesthetics with practical advantages that make installation, handling and maintenance easier for modern projects. The result is a visually strong surface solution created for everyday interior use.

Lightweight
Easy to handle and reduces unnecessary wall load.

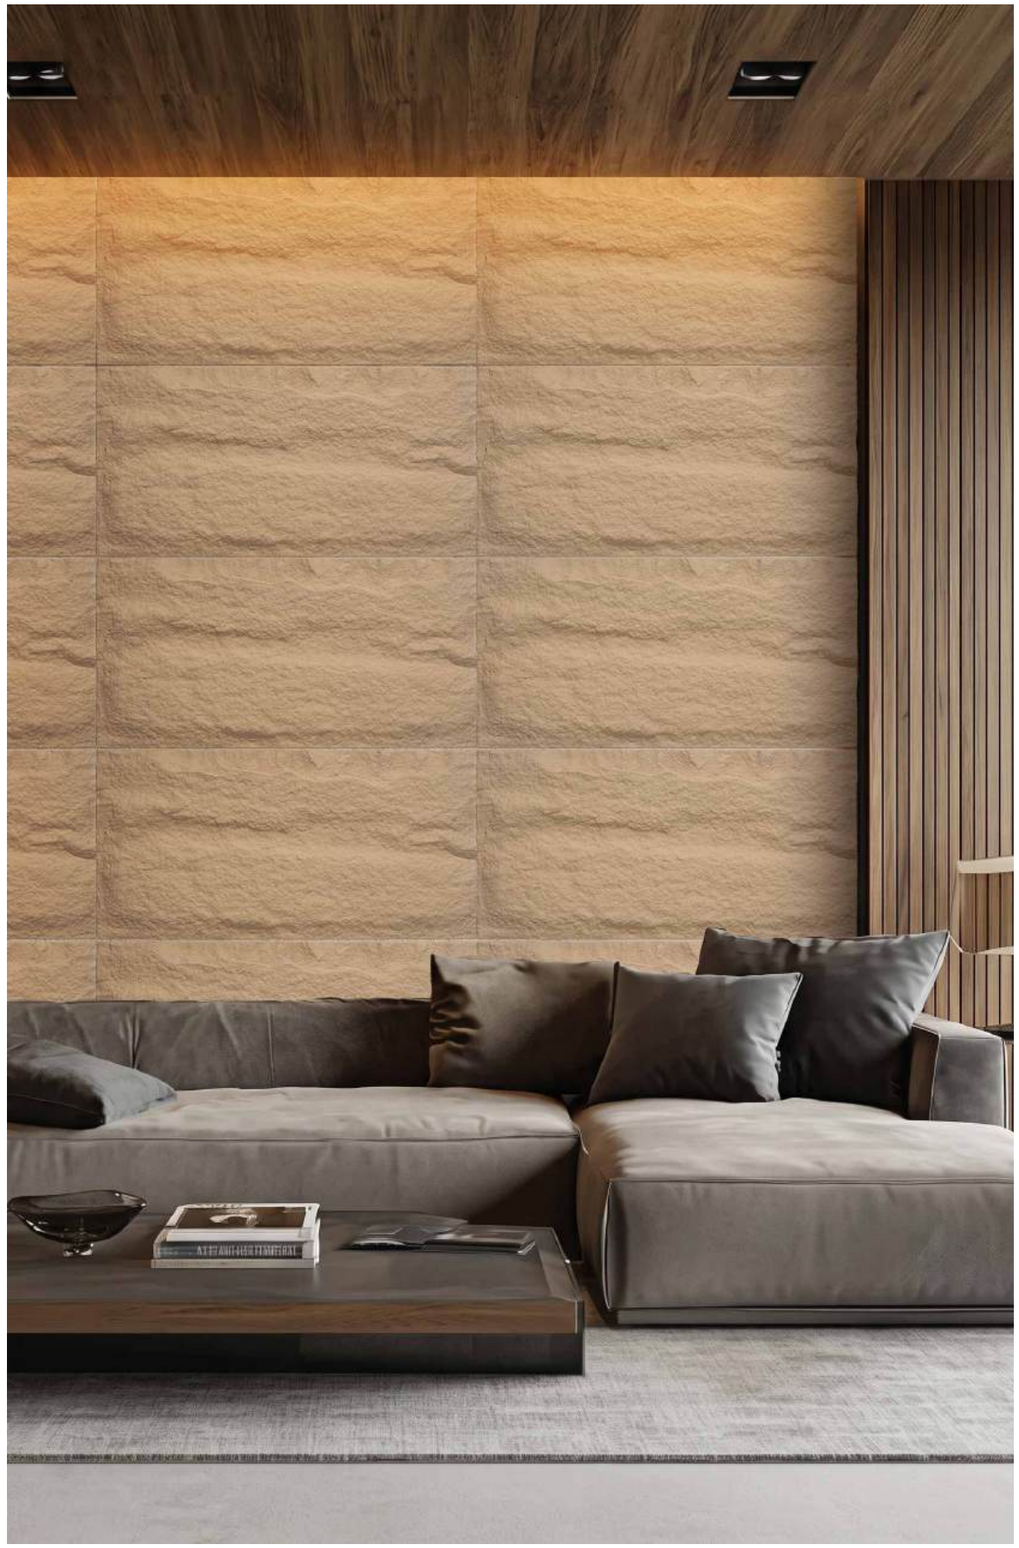

Durable
Made to maintain its visual appeal through regular interior use.

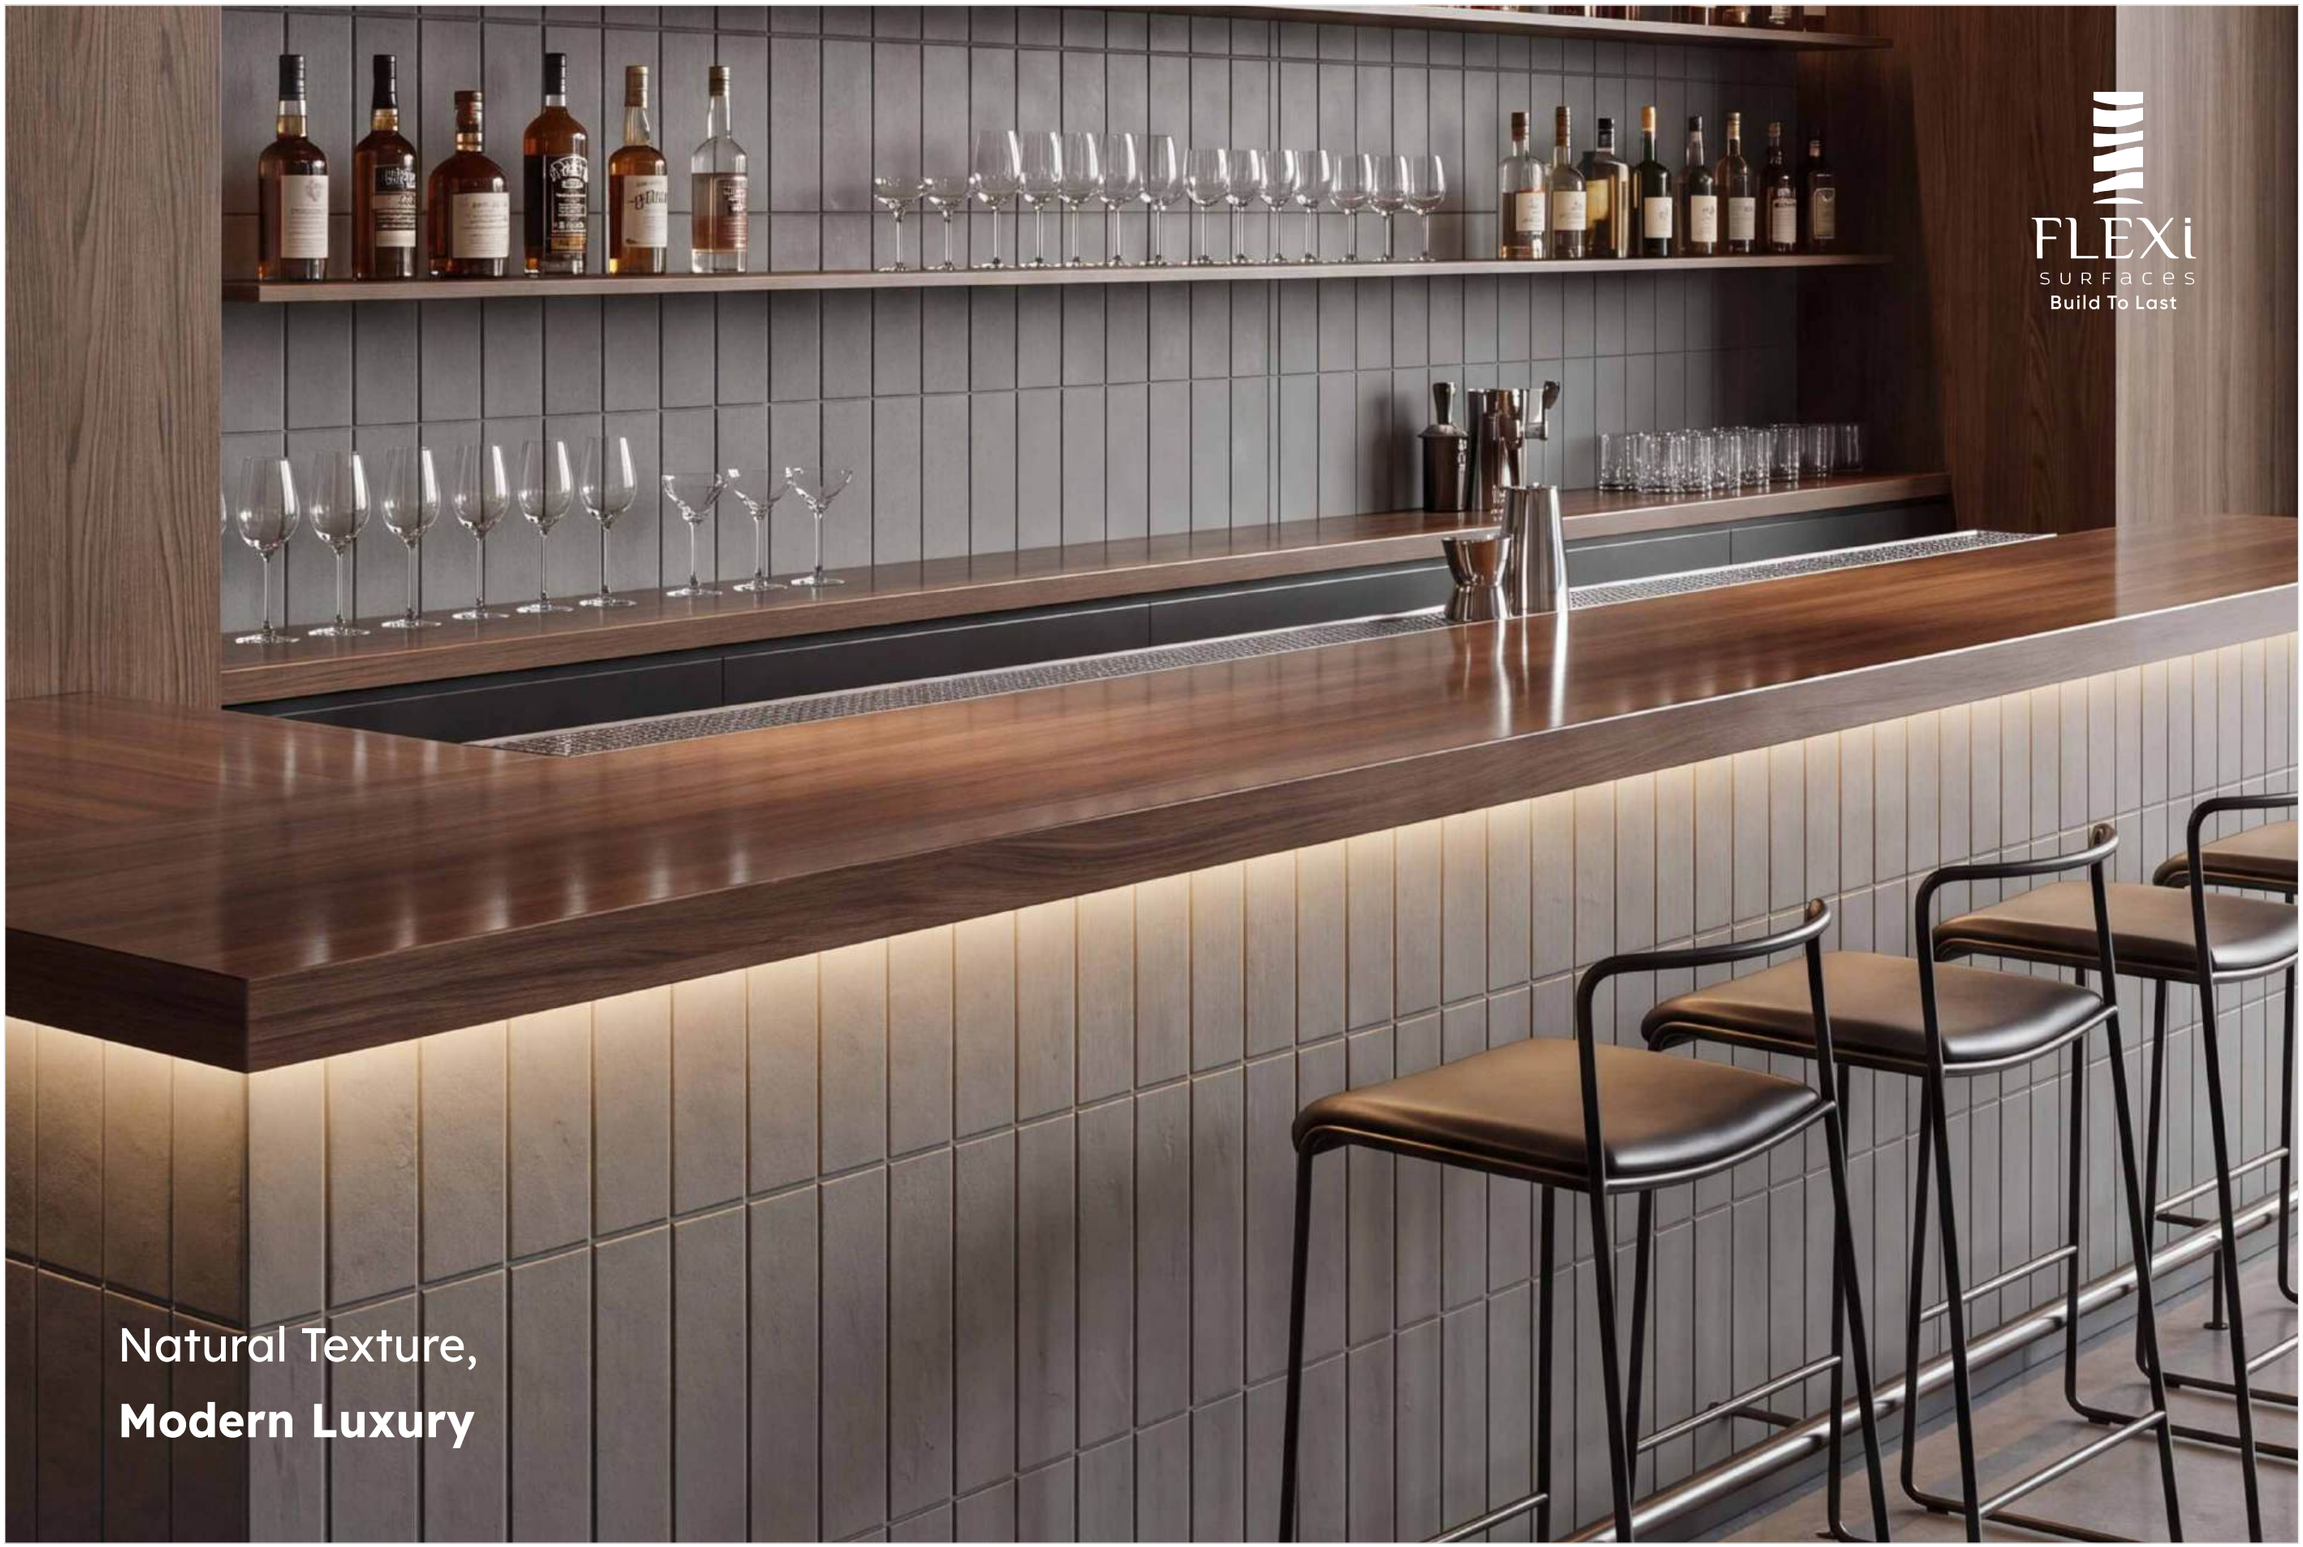

Realistic Texture
Detailed surface depth inspired by natural stone formations.

Moisture Resistant
Suitable for many interior areas exposed to normal humidity.

Quick Installation
Designed for faster and more convenient wall application.

Low Maintenance
Easy to care for with minimal routine upkeep.
